Navigate Today's Business Challenges

Around the world, companies in every industry are dealing with unprecedented levels of disruption. Whether in sales, marketing, supply chain, finance, or human resources, you must find solutions quickly to keep your business running smoothly while supporting your customers and employees. To succeed in this fast-moving landscape, you must:

Make technology investments work harder for you

Spend less with fewer resources. Get the most out of your IT spend by unlocking the value in diverse, hybrid system environments comprising both SAP and third-party solutions.

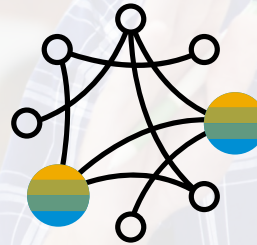

Meet the complex needs of your stakeholders

Understand the new and diverse needs of customers and employees while adapting your operations to deliver business outcomes that help you compete in rapidly evolving markets.

Unify applications, data, and processes

Eliminate silos and integrate applications and data sources to streamline processes, improve operational efficiency, and achieve cost-effective agility during a period of rapid change.

Connected system landscapes reduce complexity and cost while enabling business productivity for companies around the world.

Turn Challenges into Opportunities with SAP Cloud Platform

With SAP Cloud Platform, you can establish a foundation for an intelligent enterprise that helps you overcome challenges and take advantage of new business opportunities. By integrating processes, supporting innovation through solution extensions, and harnessing the power of the SAP ecosystem, you can increase efficiency and productivity, cut costs, and accelerate agility. In this way, you can better respond to – and thrive in – a fast-moving business environment.

30%

Cost savings at a global agricultural equipment manufacturer, thanks to improved business agility

15%

Productivity increase at a leading oil company through the secure integration of applications and data to provide a foundation for business success

4.5x

Reduction in business process time at a major airline by improving collaboration between business and IT

“Platform technology is required to support continuous change without the loss of continuous integrity.”

SAP Cloud Platform in Action: Responding Quickly to Bring People Home

Federal Foreign Office of Germany

Challenge

The COVID-19 pandemic left thousands of people around the world with no way to get home. Germany's Federal Foreign Office needed a fast and secure way to coordinate the repatriation of its citizens. However, its existing solution could not scale quickly enough to meet requirements during the pandemic.

Solution

In less than 24 hours, SAP built an application on SAP Cloud Platform to support the German government in the repatriation of tens of thousands of citizens. The new cloud solution is scalable and secure and helps the government ensure that its people get home quickly and safely.
